

Is there evidence for the Creation Theory?

Did God make everything in days?

This question is probably the most asked one about the u..... The best way to answer it is to eliminate every other alt..... then look at why God did it this way.

First you should read Genesis chapter 1. It is on the internet if you don't have a Bible. God created everything in 6 days:

Day 1 Light and d.....

Day 2 S...

Day 3 Dry g..... and p.....

Day 4 S....., m..... and s.....

Day 5 Sea c..... and b.....

Day 6 Land c..... and m.....

You have a choice: either b..... God did this based on the e..... or believe everything made i..... based on the evidence. To investigate this you should use the excellent web sites on the internet rather than read arguments for and against. The best at the moment is 'AllAboutScience' because they have video clips that show the complex design involved in all creation.

Evolution and creation are both th..... about how life started and came to be this way. They are theories about the p..... Can they be proved scientifically? The definition of scientific proof is that something must be repeated with the same result continuously in a controlled setting such as a laboratory.

As evolution is supposed to have happened over the past 4 billion years can it be r..... and o.....? No! When something happened in the past all you are left with is finding the best

way to explain the evidence left behind. This is not scientific proof but falls into the category of
h..... proof.

Nobody was there to observe so we are left with theories. Evolutionary scientists do not believe the Biblical
account of creation, rather life started by chance while creationists say that God used His
..... mind to create this complex world including the intelligent minds of the scientists. Each
one is a matter of belief interpreting the evidence and the belief in God explains the evidence in a much
more c..... and l..... manner.

Here is some of the evidence for creation by God:

1. All created beings must have a c..... Nothing can make i..... There must be a
cause for every e.....

Imagine you are walking along a beach and you see the name 'John' written in the sand. Is your immediate
reaction to think that this is the result of a combination of wind and waves on the
sand or do you logically conclude that somebody must have written it? If we are honest we all know that if
something has order to it like the word 'John' a person with an intelligent mind must have put it there.

Again, NASA has a program where they are looking for life in outer space by sending out sound signals and
waiting for a response. With all the space noise out there scientists were asked how they would know which
ones meant intelligent life. The reply was 'the ones that showed some sort of pattern or order.' They are so
willing to believe that any pattern or order in outer space is obviously designed by an intelligent mind and
yet they look at the amazing complexity of this world and tell themselves, and anyone who will listen, that it
all happened by c.....

Let's be honest and at least say that the very l..... conclusion is that the o..... and
complexity of this world was designed by a creative i..... mind. The logical question to ask
at this stage is "So if everything needs an intelligent being to create it then who made God?" But God is
s..... and not matter so He did not need to be designed or created by another force. It is only

material things that need a beginning and an end but God is eternal and not material. Nobody needed to create Him.

2. If even the one-celled organisms are now revealed as being as complex as a major city, with transport systems, communications and enough information to fill a set of encyclopedias, where does that leave the evolutionary idea that 'p.....' one-celled organisms suddenly appeared on the scene. From where did their amazing complexity come?

In a recent documentary called 'The Triumph of Life' (Green Umbrella Ltd) the claim was made that 'out of order and chaos order and complexity e.....'. They go on to claim that 'cells organized themselves into multi-celled o.....'

Moving on up the evolutionary ladder they claim that 'animals developed shells for protection against predators' and 'developed simple lungs and skin' to adapt to conditions on land. Later on 'simple lungs allowed them to breathe air' and 'governed by new genes they transformed into new creatures. They grew wings.'

Reptiles were very pleased when 'waterproof eggs allowed them to breed in dry places.' In conclusion, the documentary insists, these creatures were molded in form and action by e.....

Richard Dawkins, an evolution spokesperson, on page one of 'The Blind Watchmaker', stated that 'biology is the study of living things which look like they have been d..... (but he still believes they haven't, despite admitting they appear to have been designed).

Scientists who are experts in the field of biological complexity such as Sir Anthony Flew, have realized these ideas are r..... Their studies of DNA under the electron microscope have show them that the blue print for all living things exists in every cell in every organism and there is no way that an organism can learn new information from external sources. If you look up Flew's name on the internet you

can learn how one of the strongest e..... scientists has turned his back completely on this system in favour of an intelligent designer.

3. Our Intelligent Designer has made all His creation dependent on so many other t..... Did you know that if the earth was a little closer or further away from the sun we would all be dead? If we had more or less oxygen every day we would d.....

If the vitamins found in fruit and vegetables were not there we would s..... and die. If plants were not created the day before animals we would all die. etc.

At school we are taught evolution as fact when there is no experimental or even clear f.....l evidence for it. We are taught that everything started with one single-celled organism which somehow came to life without anyone c..... it. No scientist has ever been able to do this in a

l..... Somehow this one-celled organism evolved into multi-celled organisms over millions of years though there is no fossil e..... in the many rock layers that this has happened. Also there is no evidence that organisms have developed from less complex to more c..... beings.

Evolutionist also believe that somehow these organisms found a way to divide into two completely different groups called plants and animals even though they have nothing in common. They had to develop together at the same time on the evolutionary time scale in such a way that they supported each other's survival. For example the Ulysses Butterfly had to appear at the time when Corkwood evolved as this is the only tree it uses for b.....

It takes a lot to be convinced by this fairy story. There is far more evidence for the Creator Designer who has organized this magnificent creation intricately than for the idea that it just created itself by chance with nobody in charge.

The latest news about evolution is that scientists now see that Darwin was wrong about the tree of l..... theory. See 'New Scientist' January,2009 for more detail.

These are not Christian yet they see huge holes in the theory of evolution. Pray that their eyes will be opened to see the whole thing is wrong. There are many more points to make for creation as a theory but they are best made by seeing the pictures and videos with comments on AllAboutScience and CreationOnTheWeb websites.

Remember you are involved in a battle. You have been taught to do without a need for God by explaining away His creation as a matter of chance and time. Read through this study again then go out and study some butterflies and birds or the moon and stars at night.

Pray to God that He will show you the truth.

Keep going. Don't let doubt stop you in your search for truth. We want to help you get through to an understanding of your God who made you magnificently and loves you so much He sent His only Son to die for your sins so that you can live forever with Him.

You can become a new person in tune with your maker.

This is an experience every true Christian knows and is greater than any other.

DISCUSSION QUESTIONS

1. Pray to God for a clear mind to see clearly the majesty and magnificence of His creation and the foolishness and lack of truth in the evolution theory.
2. Discuss in your group which animal amazes you about its complexity and design by God.
3. Which of the points above would you use first to show others that God is our Intelligent Creator? Why?
4. Discuss what you saw on 'All About Science' and 'Creation on the Web' websites. Which video clip showed you most clearly that God intelligently designed His complex creation?
5. Discuss what research you still need to do about evolution and creation. There is so much more you can learn and it will all strengthen your faith in God and what He has done.
